WORK EXPERIENCE

WordPress Developer March 2023 – Present

Tech Thrill – Bahawalpur, Punjab, Pakistan

- Designed and developed responsive WordPress websites — including business, eCommerce, LMS, and marketplace platforms — using Elementor, Oxygen, Bricks, and Beaver Builder.
- Developed custom dashboards and admin interfaces tailored to client workflows, improving usability and day-to-day site management.
- Diagnosed and resolved WordPress bugs, plugin conflicts, and theme-related issues to ensure stable, error-free performance.
- Executed website cloning, migration, and redesign projects while preserving full data integrity and functionality.
- Performed malware removal, security audits, and website hardening to protect client sites against threats and vulnerabilities.
- Managed cPanel hosting environments, resolving hosting-related issues including DNS, SSL, email, and server configuration problems.
- Optimized websites for page speed, technical and on-page SEO, and security best practices to improve rankings and user experience.
- Built custom layouts and features with HTML, CSS, JavaScript, and PHP, delivering client-focused solutions aligned with business goals.

Front-End & Back-End Developer Jan 2023 – Present

Tech Thrill – Bahawalpur, Punjab, Pakistan

- Developed and maintained dynamic websites and web applications using HTML, CSS, JavaScript, and PHP.
- Collaborated with designers and project managers to translate requirements into functional, user-focused websites.
- Implemented feature updates, enhancements, and performance improvements across a diverse portfolio of client sites.

- Maintained, updated, and optimized existing websites to ensure long-term stability, usability, and functionality.

Shopify Developer Jan 2022 – Jan 2023

SilverMind Solutions – Bahawalpur, Punjab, Pakistan

- Built and customized Shopify stores for dropshipping and eCommerce businesses, with a strong focus on conversion optimization.
- Managed product hunting, product listings, and complete store configuration from setup to launch.
- Customized Shopify themes to enhance UI/UX; integrated third-party apps and optimized overall store performance.
- Ensured mobile responsiveness and applied on-page SEO best practices to improve store visibility and organic traffic.

SECURITY & HOSTING EXPERTISE

- cPanel Hosting Management: Complete handling of cPanel environments — domain setup, DNS configuration, SSL installation, email accounts, databases, and file management.
- Hosting Issue Resolution: Diagnosing and fixing downtime, server errors, resource limits, PHP version conflicts, and hosting migration problems.
- Malware Removal: Detecting, cleaning, and removing malware, backdoors, and injected code from compromised WordPress and eCommerce websites.
- Security Audits: Conducting full website security audits, identifying vulnerabilities, and implementing hardening measures, firewalls, and secure configurations.
- Preventive Security: Regular backups, update management, login protection, and monitoring to keep client websites safe and recoverable.
